## The Definition of Q

The Q is synonymous with the term Specialty Coffee. To be considered a Q Certified Coffee, coffee must meet certain minimum requirements, as defined by the Specialty Coffee Association of America (SCAA). The SCAA recognizes two classifications within specialty grade, specialty and premium, and both are considered Q.

	Q GRADE/SPECIALTY	Q GRADE/PREMIUM	BELOW Q GRADE
CUP	85+	80 - 84.99	< 80
GREEN	Coffee can have 0 Primary defects and no more than 5 Secondary defects	No more than 8 defects, including both Primary and Secondary defects	> 8 defects, including Primary and Secondary defects
ROASTED	0 Quakers	No more than 3 Quakers	> 3 Quakers
